

Impacts of Eviction Moratorium

Charlotte Metro Area

**18.9% of renter households in North Carolina
are behind on their rent payments.**

(As of December 21, 2020)

For every 1% of renters
not paying rent
during a 6-month
eviction moratorium

\$21.9M

FINANCIAL IMPACT OF MORATORIUM

DECREASED

Apartment Rental Income

For every 18.9% of renters
not paying rent
during a 12-month
eviction moratorium

\$829.0M

\$424.5M

DECREASED

Property Value

\$16.0B

\$4.0M

DECREASED

Property Tax Revenue

\$152.8M

An eviction moratorium interrupts the revenue needed to pay employee salaries, mortgages, property taxes, maintenance and utilities. If 1% of apartments do not pay rent due to a 6-month eviction moratorium, rental income would decrease by \$21.9M, ultimately leading to an \$4.0M loss in property tax revenue. If 18.9% of apartments do not pay rent during a one-year eviction moratorium, those figures substantially increase to \$829.0M and \$152.8M, respectively.

Charlotte apartments and their residents
contribute \$20.3 billion
to the metro economy every year and
support 88,100 jobs.

Notes

- Estimated property value decreases utilize the rate of return on a 30-year Treasury Bill.
- Property tax loss estimates based on apartment property tax rates for each city reported in the Lincoln Institute of Land Policy "50-State Property Tax Comparison Study for Taxes Paid in 2019," Appendix Table 5A . The estimates of revenue loss reflect assessed value fully following market value changes.
- Property tax loss estimates assume assessment at full market value.
- Property tax revenue losses are based on tax rates for the city of Charlotte.
- Apartments are defined as located in properties with 5 or more units.
